THE COMPANY *Profile*

WHO ARE WE

Since 1925, Aldes has been shaping healthier, more comfortable spaces as a family-founded company from France. Today, we are a global leader in solutions that ensure superior air quality, thermal comfort, and energy efficiency across residential, commercial, and industrial buildings. With nearly a century of innovation, Aldes sets the standard for quality, reliability, and performance worldwide.

Our commitment to cutting-edge technology, sustainable design, and a deep understanding of our customers' needs has made us a trusted partner for architects, engineers, and builders around the globe.

CHAIRMAN'S MESSAGE

Quietly at the heart of the building, Aldes solutions bring healthy air into interiors. Ventilation, thermal comfort, fire protection...

Our systems instill comfort and well-being. Because "breathing healthy air in buildings is vital to everyone's well-being", we design and produce our solutions bearing in mind our responsibility to our customers, our teams and our environment, and we set ourselves the highest standards in terms of health and well-being.

A family-owned industrial group since 1925, present in over 15 countries with 2100 employees, we pursue our growth objectives while taking into consideration our environmental and social impacts, with a view to making our development both responsible and profitable.

Stanislas Lacroix
Chairman of the Executive Board

HOW WE WORK

We are convinced that breathing healthy air in buildings is vital to everyone's well-being, and a unifying factor for the industry.

We design and manufacture increasingly responsible, high-performance, connected ventilation and thermal comfort solutions to make buildings healthier.

As experts in ventilation and thermal comfort, we are committed to enhancing the value of building professionals and making their daily lives easier, by striving for excellence in technological innovation, service and support.
